Clinic						* Resident clinics cancelled * JHH FCC cancelled	* Resident clinics cancelled * JHH HROB cancelled		

The rationale....

- ** Chiefs of service stay on their respective services (ie JHH Ob chief is on JHH L&D and Onc chiefs cover Wbg)
- ** Holiday shifts are covered within respective call pools (ie Antepartum resident works on JHH L&D where they typically take weekend call)
- ** Nightfloat teams cover night shift as usual on Wed night (Nov 25th) and are then off for the weekend. Nightfloat resumes Sun night (Nov 29th).
- ** GBMC call is home-call.
- ** **Residents will mostly have one 24-hr call over the whole weekend. A few residents will only have one 12-hr call and some will have one 24-hr plus one 12-hr call.**
(Residents with shorter calls have done an extra call, nightfloat, or coverage earlier on in the year and thus are getting a slight “break” now. No worries, though, for other residents who may do or have done extra. There will be more “break” opportunities in the future! ☺)
- ** Residents on elective (Codi) or vacation (Shazia) do not take call
- ** Interns off service in the WICU (Modupe) and ED (Sangini) remain on their respective services and follow those services’ schedules.

A Word on Gyn Coverage:

- ** To the best of our knowledge, BV ORs are not scheduling cases Thurs or Friday; JHH ORs are closed Thurs and “pared down” on Fri; GBMC may have few cases Fri
- ** For 11/27, Sherrine will function as main OR Float in case of scheduled cases needing coverage or if extra hands are needed at BV L&D; Jill (who is on call at GBMC) will be the second back-up if she is free.
- ** Sarah will cover WBG Thurs and stay to help tuck things in on Friday. Abby W & Sherrine will then handle any WBG OR cases. Michelle will come in for majority of day on Saturday to help tuck in services and then cover 12 hour shift on Sunday.
